

# Using ELL Strategies in the Classroom

## Competency

Educator demonstrates an understanding of how to implement research-based ELL strategies to support ELL learning and achievement within a standards-based curriculum framework.

## Key Method

The educator designs an instructional plan that features effective ELL strategies to improve instructional practices.

## Method Components

Educators understand that effective research-based ELL strategies support:

- explicit skill instruction
- student-directed activities
- instructional strategies that enhance understanding
- opportunities to practice
- systematic student assessment
- a balanced curriculum either alone or in combination with other elements
- curriculum and classroom environment that honors and reflects the lives of students.

## Part 1. Overview Questions (Provides Context)

350 - 400 words

Describe strategies for teaching academic language in support of content standards.

In what ways do you collaborate with other educators to support ELL student learning and achievement within a standards-based curriculum?

Describe how you will implement strategies to support ELL student learning and achievement within a standards-based curriculum framework.

Describe how you create a classroom environment that cultivates an appreciation of diversity.

**Passing:** Completely answers each of the four questions using personal examples and supporting evidence from previous collaborations and/or classroom lessons that clearly illustrate how to utilize research-based ELL strategies to support ELL learning and achievement within a standards-based curriculum framework. Writing is organized and easy to understand.

## Part 2. Work Examples/Artifacts/Evidence

To earn this micro-credential, please submit the following three artifacts:

### **Artifact #1: ELL Planning Template**

A lesson plan supporting ELL students that reflects the integration of the following six strategies:

- Teach academic vocabulary
- Integrate English language instruction into lessons
- Structure opportunities to develop written language skills
- Provide opportunities to develop written language skills
- Capitalize on students' home language skills and knowledge
- Provide small-group instruction to ELLs struggling with literacy and English language development

### **Artifact #2: Video presentation**

A 10 to 15-minute video focusing on a portion of your lesson that identifies one of the six strategies you used to support your ELL learners. (Do not show student's faces).

### **Artifact #3: Analysis of ELL Lesson Plan**

An analysis of how your lesson plan achieved your objective of using research-based strategies to support ELL learning and achievement. This can be a recorded audio file (5-10 minutes) **or** a written response ( 400 - 500 words).

## Part 2. Rubric

	Proficient	Basic	Developing
Artifact #1: ELL Planning Template	The plan explicitly includes six or more research-based strategies for supporting ELL students within a standards-based framework.	The plan generally includes 3-4 research-based strategies for supporting ELL students within a standards-based framework.	The plan briefly mentions or includes research-based strategies for supporting ELL students within a standards-based framework.
Artifact #2: Video presentation	Video explicitly identifies research-based strategies for supporting ELLs within a standards-based framework.	Video generally identifies research-based strategies for supporting ELLs within a standards-based framework.	Video superficially identifies research-based strategies for supporting ELLs within a standards-based framework.
Artifact #3: Analysis of ELL Lesson Plan	Analysis explicitly defines how research-based strategies used met the objective of supporting ELL students' academic achievement	Analysis generally defines how research-based strategies used met the objective of supporting ELL students' academic achievement.	Analysis superficially defines how research-based strategies used met the objective of supporting ELL students'

## Part 3. Reflection

800 - 1000 words

Use the word count as a guide to write a personal reflection about your work on this micro-credential. For tips on writing a good reflection review the following resource:

[How Do I Write a Good Personal Reflection?](#)

Submit a reflection focusing on what you learned in creating your ELL plan, identifying key strategies you used to support all students in accessing grade-level content, and an understanding of how to use state standards in the content areas to set instructional goals. Please make sure you address the following question:

Moving forward, how might what you have learned affect your practice? How will you continue to embrace students' cultures and language while learning new material?

**Passing:** The educator reflects on using research teaching strategies for supporting ELLs within a standards-based framework for future daily lesson planning and instructional delivery.
