Technology Integration: Leader

Educator seeks out leadership opportunities to improve teaching and learning using technology.

Key Method

The educator actively seeks leadership opportunities to support, model, and promote a shared vision of empowered learning through purposeful technology integration, digital equity, student learning, and engaging stakeholders.

Method Components

Developing a Shared Vision

Leaders facilitate discussions with stakeholders to identify what training, devices, skills, and strategies are needed to support the purposeful use of digital tools to empower student learning. For example:

- Create and administer a needs assessment
- Analyze the current state of digital tools and training needs
- Share results of needs assessment with school leadership and stakeholders
- Work with businesses to create funding partnerships

Advocating for Equitable Access and Integration

Work with school and/or association leadership to identify committee participation opportunities for purposeful integration and equitable access to technology. For example:

- Technology committee
- Building a leadership committee
- Professional learning communities/networks
- School board meetings
- Seeks grants/donations for technology purchases

Use of Digital Tools and Resources

Model for colleagues integration of digital tool and support curation of resources to develop educators’ skills and strategies. For example:

- Develop resource website
- Asynchronous PD learning
- Blog/newsletter
- Classroom observations
- Conference presentations
- PLC demonstrations/notes

Submission Guidelines & Evaluation Criteria

To earn the micro-credential, you must receive a passing score in Parts 1 and 3 and receive a proficient for all components in Part 2.

Part 1. Overview Questions

300 - 500 words

Please answer the following contextual questions to help our assessor understand your current situation. Please do not include any information that will make you identifiable to your reviewers.

1. Before beginning this micro-credential, where were you in your understanding of modeling technology integration and advocacy for equity of technology access for students and/or staff?

2. Describe your educational setting and context. Include demographics, position expectations, etc.

3. How do you think this micro-credential will develop you as a leader that promotes integration of technology and advocates for equitable use of technology?
   - **Passing:** The response answers all questions completely and provides specific information to support the choices the educator has made.

Part 2. Work Examples / Artifacts

To earn this micro-credential, please submit the following three artifacts as evidence of your learning. Please do not include any information that will make you or your students identifiable to your reviewers.

**Artifact 1: Needs Assessment & Implementation Plan**

- Technology Needs Assessment Template (in resource section)
- Analysis of Needs Assessment results that identifies themes for needs and training
- Implementation Plan from Needs Assessment that includes a timeline and ideas for funding and distribution

**Artifact 2: Committee Involvement Artifacts**

Submit 2 artifacts that show evidence of your involvement in a committee that advocates for digital equity and/or technology integration. Please combine both artifacts into one document for submission. Some examples of evidence are:

- Meeting agendas
Artifact 3: Modeling Integration of Technology and Sharing Resources

Submit 2 artifacts that show evidence of modeling technology integration and sharing resources digitally. Please combine both artifacts into one document for submission.

Examples of artifacts:

- Screenshot of website
- Feedback from classroom observations
- Screenshot of blog postings
- Collaborative lesson plan (annotate to show how you were a leader in the collaboration of creating the lesson plan)

Reflection

300 - 500 words

Please answer the following reflective questions. Please do not include any information that will make you identifiable to your reviewers.

Respond to the following prompts:
1. Describe how your sharing resources and technology integration strategies with others positively impacted your instruction.

2. How did advocating for equitable technology use and access support your students' use of technology for learning?

3. How do you see yourself continuing to build your leadership practices in the future?

**Passing:** Reflection provides evidence that this activity has had a positive impact on both educator practice and student success. Specific examples are cited directly from personal or work-related experiences to support claims. Also included are specific actionable steps that demonstrate how new learning will be integrated into future practices.
